

5 PILLARS OF AN AI ASSURANCE PROGRAM

01

AI GOVERNANCE

Define policies, ownership, and accountability for responsible AI.

02

RISK & COMPLIANCE

Identify AI risks and align with regulations and industry standards.

03

SECURITY & PRIVACY

Protect AI models, data, APIs, and sensitive information.

04

MODEL VALIDATION

Test AI for accuracy, bias, robustness, and explainability before deployment.

05

CONTINUOUS MONITORING

Track AI performance, detect drift, and respond to emerging threats in real time.

**TRUSTED AI ISN'T BUILT ONCE.
IT'S CONTINUOUSLY ASSURED.**
